APPLICATION NOTES:

KTT-333 is a biaxially oriented, multilayer polypropylene that features moisture and chemical resistance, as well as strength and durability.

Kanzaki's new smudge resistant coating offers a superior thermal transfer printing surface and excellent solvent resistance. Testing has revealed characteristics that may enable end users to reduce printer energy, thereby lengthening printhead life.

KTT-333 is compatible with flexographic printing and is ideal for drum labeling, shelf marking, parts and inventory labels, and anywhere a strong, durable label stock is needed.
